In this lecture we will be going over the basics of the Jupyter (previously called iPython Notebooks).

For a complete User Manual check out the [Bryn Mawr College Computer Science Guide](https://jupyter.brynmawr.edu/services/public/dblank/Jupyter%20Notebook%20Users%20Manual) ([https://jupyter.brynmawr.edu/services/public/dblank/Jupyter%20Notebook%20Users%20Manu](https://jupyter.brynmawr.edu/services/public/dblank/Jupyter%20Notebook%20Users%20Manual)

Most of the breakdown will actually occur in the presentation corresponding to this Notebook. So please refer to either the presentation or the full User Manual linked above.
